

## Haematologist – Various Regions – Norway

Submitted on: 20/05/2018, Reference number: 2018107

End date: 20/08/2018

### Location:

Norway is the westernmost part of the Scandinavian Peninsula. It has a population of approximately 5 million and a population density of approximately 13 people per km<sup>2</sup>. This places the country as the third least populated country in Europe.

The country is most characterized by its breath-taking landscapes. The fjords, protected by UNESCO in particular, symbolize the beauty of traditional Norway. This is where time passes at its own pace.

Despite the fact that Norway is high in the north, the climate thanks to sea and air flows along the North Atlantic coast is characterized by its mild winters.

Norway is a highly developed industrial country and a welfare state. The country is rich in gas and oil fields, which together with shipping and trade form the pillars of the economy. Due to its high standard of public health, education and quality of life, Norway has been proclaimed the most developed country in the world several times by the UN.

### Job Description:

On behalf of hospital in Norway, we are looking for a haematologist for a full-time, permanent position.

You will be part of a multidisciplinary team and work in multiple locations. The hospital provides in and outpatient oncological care. The successful candidate will be present at multidisciplinary meetings. Furthermore, you will partake on an on-call roster. Lastly, you will supervise registrars.

For this position you need to possess excellent communicational, social, management, educational and administrative skills. Moreover, you must also be able to work effectively and efficiently in a team and be experienced in your profession. Finally, you should master the Norwegian language in both speech and writing. Support will be offered for this.

The employer offers attractive primary and secondary employment conditions. Due to the ties that the healthcare provider has with a university, there are career growth opportunities.

This vacancy expires on 20 August 2018.
