ORGANISED WITH
THE SUPPORT OF NOVARTIS

Dear colleague

We hope to welcome you in Leuven for the MPN preceptorship on Thursday 21 March 2019. The aim of this meeting is to present a comprehensive overview and update on BCR-ABL1 negative myeloproliferative neoplasms: from pathogenesis and diagnosis to the concrete daily management of MPN patients.

We offer an interactive programme and participants can submit MPN patient cases in advance. Selected cases will be discussed.

We have invited a well-known MPN-expert, professor Francesco Passamonti from Turin (Italy), as keynote speaker for the evening programme.

You can subscribe by sending an e-mail to secretariaat.hematologie@uzleuven.be.

If you would like more information, you can send an e-mail to the same address or call +32 16 34 68 80.

We hope to see you on this occasion.

On behalf of the Haematology Department of the University Hospitals Leuven,

Prof. dr. Timothy Devos, prof. dr. Peter Vandenberghe,
prof. dr. Gregor Verhoef
