Comparison of percentage of Belgian and total centres reporting data to the 2009 EBMT Activity Survey that are also registered with JACIE

14 inspectors: 11 (BHS) + 3 (independent)

>Clinic – adults: 7

>Clinic – children: 1

>Collection: 6

>Processing: 4

75 participations to JACIE inspections:

> France (39)

> The Netherlands (9)

> Belgium (12)

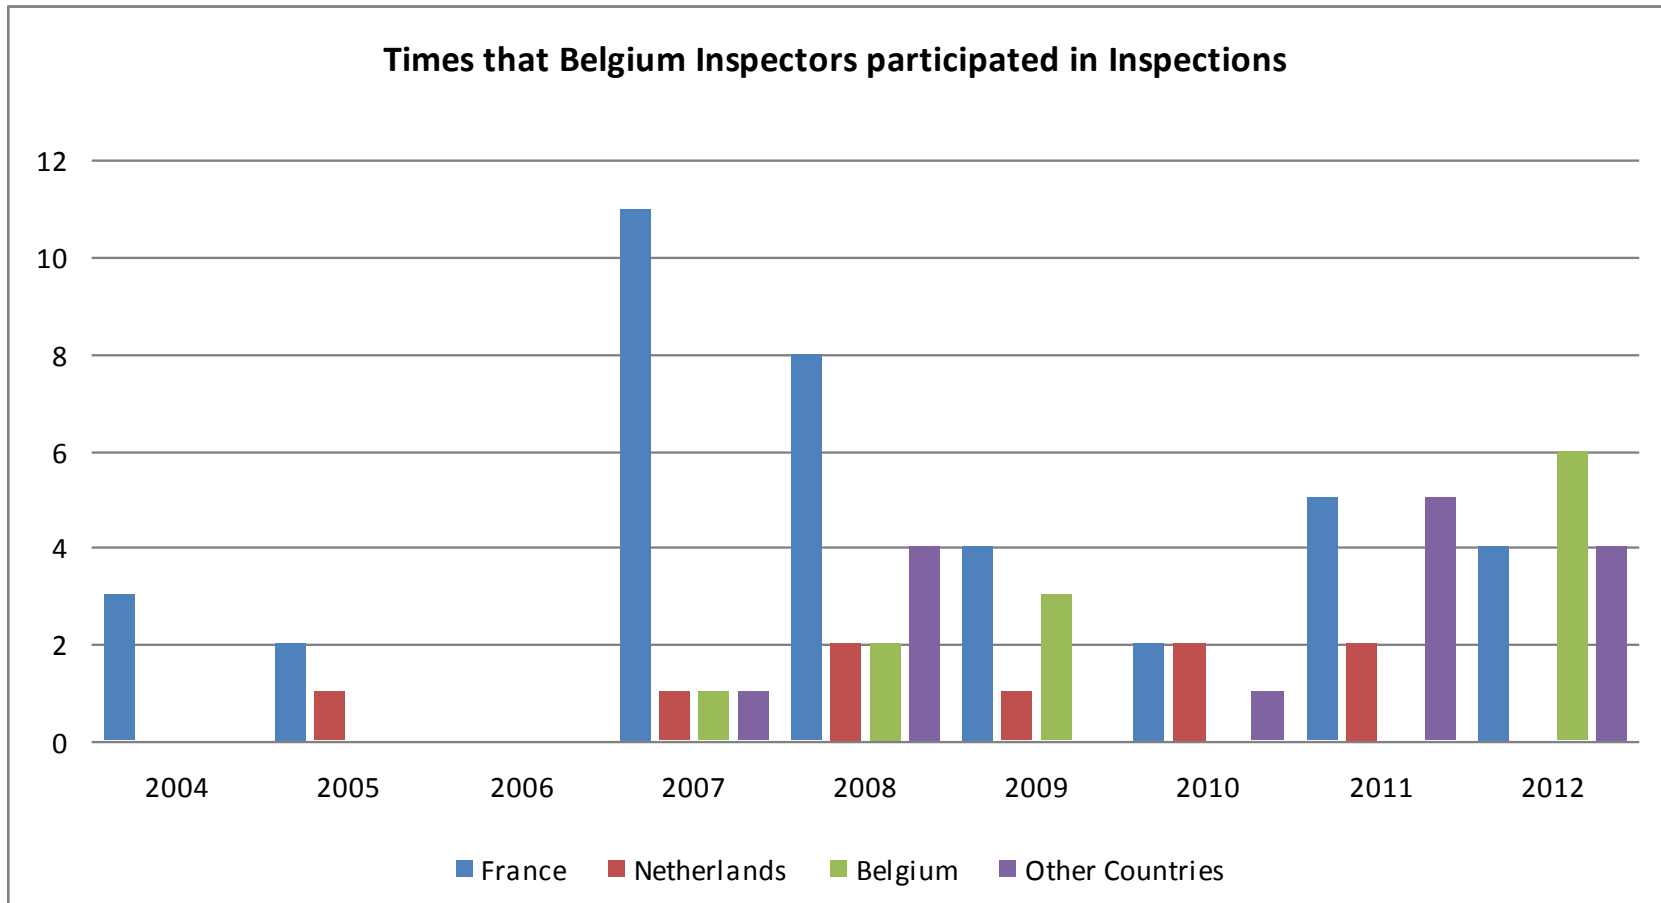

> UK

> Switzerland

> Israel

> Saudi Arabia

Belgian JACIE inspectors in international inspection teams

Exchange inspectors with The Netherlands

- So far 9 Belgian inspectors participated to inspections in The Netherlands while 13 Dutch inspectors participated to inspections in Belgium
- JACIE inspections in The Netherlands are coordinated by CCKL
- JACIE accreditation in The Netherlands obligatory
- So far: Belgian inspectors in case of conflict of interest or as back-up
- Future (proposal): one pool of Dutch speaking inspectors and one integrated inspection planning

Exchange inspectors with France

- So far 39 times a Belgian inspector participated to inspections in France while 4 French inspectors participated to inspections in Belgium
- French “internal inspector pool” too limited
- Inspector training (in French) in Paris (January 2013)

Strengths and problems

Strengths:

- Less change for conflict of interest
- International JACIE spirit > more “calibration” among inspections
- More opportunities for international networking

Problem:

- Availability of international inspectors > long delay in inspection planning (up to 1 year!)

JACIE and national regulations in Europe

INTERNATIONAL

- JACIE accreditation criterium for national licence as SCT center in the Netherlands
- JACIE accreditation required for reimbursement by social security in Switzerland
- JACIE accreditation (or active implementation) required for Allo SCT centers in France
- JACIE accreditation required for licence by national registry in Germany

JACIE and national regulations in Belgium

JACIE accreditation required for reimbursement by RIZIV/INAMI:

➤ Royal decree of 21/12/2012:

> At 1/1/2013: start preparation of JACIE accreditation process

> At 31/12/2017: JACIE accreditation obtained

- JACIE standards as official advisory document for national stem cell bank inspections (Superior Health Council)

BHS Subcommittee: the past

- **Subcommittee meetings**
- **Organisation centre preparation courses**
- **Organisation internal auditor trainings**
- **Two national review manuscripts “JACIE in Belgium**
- **Critical evaluation and discussion about new version of the international JACIE standards + writing of BHS recommendation report (sent to JACIE/FACT)**
- **First national JACIE meeting day (La Hulpe) in 2011**

BHS subcommittee: the future

- Members: national JACIE inspectors and/or other SCT center delegates (max 2/center)
- JACIE forum (inspections, trainings, standards, annual meeting,...
- National regulations
- Discussion topics:
 - > education and competency testing
 - > outcome analysis
 - > validation
 - > ...

JACIE in Europe: current situation and future
